Packing List:

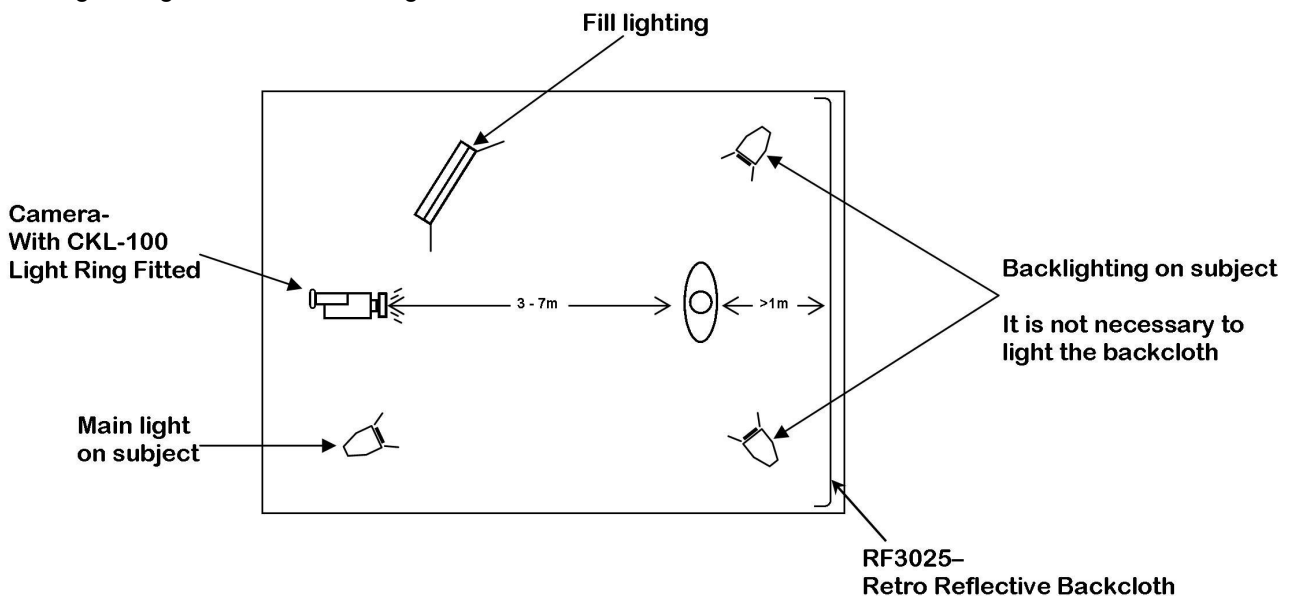

The following items should be included in the box. If any items are missing please contact your supplier.

- 1 x RF3025 3m x 2.5m Retro Reflective Cloth
- 1 x Instruction Manual

Introduction

The Datavideo RF-3025 is a 3m x 2.5m Retro Reflective Cloth. It is intended for use with LED Light Rings such as the Datavideo CKL-100 / TD-1, for chroma key applications.

Using a light ring differs slightly to conventional chroma keying. A typical set up with a Retro Reflective Cloth and Light Ring would be something like this:

Features

Retro Reflective Cloth for use in Chroma Key Studios

Operation

The RF3025 Cloth is intended for indoor use.

Hang using the fitted eyelets which run along the top of the fabric. The Retro Reflective side of the cloth is the side that is grey in colour, this should be facing towards the camera.

It is not necessary for the back cloth to be completely crease / wrinkle free but it is advisable to smooth out any major creases.

Care and Maintenance

We recommend that the cloth is stored rolled up rather than folded, if it is necessary to fold the cloth do so lightly to avoid causing strong crease lines.

It should be stored in a dry atmosphere at room temperature (between +5 and +25°C).

If the cloth becomes marked clean with a soft clothes brush, DO NOT RUB THE SURFACE.

To remove deep creases the cloth can be ironed on the reverse side, using a cool non-steam iron.

Specifications

Retro Reflective Cloth 3m x 2.5m

Storage	Store rolled up, in a dry atmosphere between +5 and 25°C
Iron	Reverse side with a dry iron (do not use a steam iron)

Specifications are subject to change without notice
